

Microbyte

DIGITAL MONEY FOR A DIGITAL AGE

DIGITAL MONEY FOR A DIGITAL AGE

Microbyte is a decentralised public blockchain and cryptocurrency project and is fully open source. Microbyte is developing a smart contract platform which seeks to deliver more advanced features than any protocol previously developed. It is the first blockchain platform to evolve out of a scientific philosophy and a research-first driven approach. The development team consists of a large global collective of expert engineers and researchers.

Security

Your transactions are secured with end to end encryptions and is impossible to capture it.

Speed

Microbyte transaction notifications occur in 1-3 seconds, blocks are discovered every thirty seconds and transactions are fully confirmed every 3 minutes. Future planned upgrades will make these times even faster.
